

WHAT IS CLAIMED IS:

1 1. A night light for coupling to an electrical wall outlet, the night light
2 comprising:
3 a base including two leads for coupling to the wall outlet;
4 a light bulb coupled to the base; and
5 a container including liquid and glitter therein coupled to the
6 base.

1 2. A night light in accordance with claim 1 wherein the container
2 comprises plastic consisting of temperature resistant plastic.

1 3. A night light in accordance with claim 2 wherein the plastic consists of
2 lexan.

1 4. A night light in accordance with claim 1 wherein the container
2 comprises a body and a separate bottom.

1 5. A night light in accordance with claim 1 wherein the container
2 comprises a single piece with an open top and a separate cap is placed over the open top.

1 6. A night light in accordance with claim 1 wherein the container is
2 located above the light bulb.

1 7. A night light in accordance with claim 1 wherein the container is
2 coupled to the base with an extension piece.

1 8. A night light in accordance with claim 7 wherein the extension piece is
2 coupled to the base with a collar.

1 9. A night light in accordance with claim 1 wherein the container
2 comprises a single piece.

1 10. A night light for coupling to an electrical wall outlet, the night light
2 comprising:
3 a base including two leads for coupling to the wall outlet;
4 a light bulb coupled to the base;
5 a collar coupled to the base;

6 an extension coupled to the collar and substantially surrounding
7 the light bulb;

8 a container including liquid and glitter therein coupled to the
9 extension.

1 11. A night light in accordance with claim 10 wherein the container
2 comprises plastic consisting of temperature resistant plastic.

1 12. A night light in accordance with claim 11 wherein the plastic consists
2 of lexan.

1 13. A night light in accordance with claim 10 wherein the container
2 comprises a body and a separate bottom.

1 14. A night light in accordance with claim 10 wherein the container
2 comprises a single piece with an open top and a separate cap is placed over the open top.

1 15. A night light in accordance with claim 10 wherein the container is
2 located above the light bulb.

1 16. A night light in accordance with claim 10 wherein the container
2 comprises a single piece.

1 17. A method of producing light with a night light including a light bulb
2 and moving glitter particles within a liquid within a container adjacent the light bulb, the
3 method comprising:

4 coupling the night light to an electrical wall outlet;
5 turning on the night light so that power is delivered to the light
6 bulb thereby illuminating the light bulb; and

7 heating the liquid with the illuminated light bulb such that the
8 liquid moves within the container thereby causing the glitter to move.
